Bio

I started my career in the IT sector after completing a BA in Digital Media (web pathway) and concluded my studies with an MSc in Computer Science, while gaining relevant work experience in between.
I am now focused on building flawless software and web applications.

What I use

Design & front-end: Adobe Illustrator/Photoshop, HTML, CSS, JavaScript, Angular, jQuery, yarn, Socket.IO
Server-side: PHP, Laravel, NodeJS, SQL, MongoDB, Composer
Software development: Java, Spring/Spring Boot, Maven
API: Custom built, Facebook, Twitter, PayPal, Google Maps/Analytics
Development tools: Linux CLI, AWS, Docker, Git/SVN, WebStorm/PHPStorm/IntelliJ IDEA
OS: MacOS, Ubuntu, Windows

Work experience

LinkHealthGroup   October 2018 – present
Senior Web Developer (remote)   Bridgewater, USA
- Being involved in technical decisions, reporting to the CTO
- Leading the development of web applications, working alongside a Front-end Web Developer and a Full-stack Web Developer
